Claudio D'Yer: Two of the country's foremost experts on the field of family business now offer their insights to the contemporary family company. They should ask what they might have done in the given situation and what new insight into the issues to the family. The most intractable family business issues are not the business problems the organization faces, but the emotional issues that compound the problems they face, understand how to develop strategies to address them and more importantly, to create narratives, or family stories that explain the emotional dimension of the relationship and avoid disputes.
